Forecast for Saturday 30 Sep 2023

Weather: Most of the day will be dry although a fair amount of high cloud around. Rain will Arran, Jura and Kintyre by mid-afternoon and then spread to elsewhere by early evening. The evening will be cloudy with outbreaks of rain but this becoming light and patchy by late evening from the south.

Chance of cloud-free hill tops above 800m: 60%, best chance in the morning

Low Cloud and visibility: Very good visibility with good air clarity for most of the day, some patchy cloud down to 800 metres. Areas of cloud down to 700 metres will develop from mid-afternoon onwards as rain extends northeastwards, and becoming more widespread down to 400 to 700 metres from mid-evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Strengthening summit winds later in the afternoon will make for slow progress. Combined with rain this will lead to drenching conditions and a notable wind chill to end the day.

Forecast for Sunday 01 Oct 2023

Weather: Some early low cloud, this lifting and breaking through the morning. Then a bright and windy day with a few passing showers, these most widespread in the morning.

Maximum wind: Southwesterly 25 mph with gusts to 35 mph on the tops

Chance of cloud-free hill tops above 800m: 40% at first, 80% by afternoon

Low Cloud and visibility: Poor in areas of cloud around 600 metres at first, this lifting and to patches around 900 metres by late morning. Excellent visibility with great air clarity for the afternoon with only small amounts of summit cloud.

Temperature: **Glens:** Plus 8 rising to 17 Celsius
At 800m: Plus 8 Celsius
Freezing level: Above summits
